

Ponto™ – Bone Anchored Hearing System

Ponto 5 Family

Powerful sound to the brain

oticon
MEDICAL

The rich sizzle, whisper, swoosh and giggle

Giving you constant access to 360° sound – with remarkable detail, clarity and balance. That's how Ponto 5 delivers a breakthrough full-sound experience.

Why? Because research shows that your brain needs the full picture to naturally filter and make sense of sound.^{1,2} We call it BrainHearing™.

Immerse yourself in premium sound

– your brain will do the rest

Benefits that speak for themselves

With a full and open soundscape, you get both great focus and great awareness. All from groundbreaking technology that's been proven to deliver significantly improved speech understanding*^{3,4} and significantly less listening effort.³ For more opportunities to seize the day.

Already a Ponto user?

Upgrade to Ponto 5 for a whole new level of premium sound

*Increased speech understanding when comparing performance with OpenSound Navigator ON relative to OpenSond Navigator OFF

Start hearing the big picture – and the little details

Access to what matters

Traditional technology aims to give you back speech understanding – by removing surrounding sounds. This can make you feel cut off from everything else around you. Ponto 5 takes a different approach.

Say hello to freedom and control

With pioneering OpenSound Navigator technology, Ponto 5 opens up your full 360° soundscape. This makes it easy to access sounds and speech from all around you. And puts you in charge of what to focus on.

And goodbye to audible feedback

You also get sounds and speech that are consistent and clear, because the unique OpenSound Optimizer stops audible feedback before it occurs.*⁵ You can even give someone a hug without worrying about distortion.

“

I can now rest my head back on the sofa without experiencing feedback.”

Paul, Ponto 5 user, UK

*For prescribed fittings, according to best practice and during normal use.

Discreet, reliable, tested. For real life.

When looks matter

The Ponto family features the smallest bone anchored sound processors available. With a range of colours – and switchable skins and stickers – you can match every style, whim and occasion.

Renowned reliability

All aspects of Ponto 5 have undergone extensive testing, including drop tests, humidity and sweat tests, extreme temperature changes and exposure to water.* So you can be sure that Ponto 5 won't let you down.

Peace of mind

Ponto 5 comes with a tamper-resistant battery drawer. And you can activate an LED indicator to monitor the processor status.

Try it first – because hearing is believing
